Invisible-5 is a self-guided audio tour of the Interstate 5 between California's two hub cities - San Francisco and Los Angeles. Invisible-5 maps the stories of individuals fighting for environmental justice along the route, revealing the hidden geopolitics of this contested landscape. This two-CD set comes with directions, map, audio cues, and other interpretive material.

More information is available online at www.invisible5.org

This project is a collaboration between Amy Balkin, Greenaction for Health & Environmental Justice, Tim Halbur, Pond: art, activism & ideas, and Kim Stringfellow.
